Dear Laurie and Michele:

Good morning! Since your meeting here at Aldersgate is tomorrow, I am copying Michele in on this email from our Pasadena office.

I have included our Contract 13307 for signature and your insurance option information. The Contract is reflecting a charge of \$ 300.00 since you added an estimated 20 more guests for tomorrow.

I see that your certificate does not reflect the dates of your retreat or our contract number. I will let Michele from our headquarters let you know if the certificate you sent to us is OK for tomorrow.

See you later on today. I will have your Contract copy here for your signature.

Sincerely,

Joyce A. Curtis

Subject: LADWP Petition to build DS 104
Attachments: LADWP-Blank Petitions.docx

Dear Laurie-

Thank you for taking the time to talk with me this afternoon. The following are items of interest to those who own property or businesses here in Pacific Palisades. If you agree that your BID membership would benefit from the construction of a reliable power infrastructure, I would be glad to come and talk with you. This need not take more than five or so minutes.

I spoke with both the Chamber of Commerce this morning, where all members signed the petition, and the Rotary Club yesterday, where almost all of the members signed the petition.

The PPCC presentation this coming Thursday, January 28, will host a talk from DWP about the temporary pole distributors that will be placed throughout the Palisades over the next few months to help limit outages during the summer 2016. They admit that these fixes are not a permanent solution to the growing power outage problem.

I encourage you to attend the meeting so that you are familiar with this issue that has such great impact on your member's interests.

Thank you,
Kelly

- * There have been six or seven serious power outages in the Palisades since March.
- * The five- hour outage on Via de la Paz that occurred just a couple of weeks ago shut down a number of businesses that could ill-afford the loss of customers.
- * DWP anticipated growing power needs in the Palisades over 40 years ago.
- * DWP bought the existing property on Marquez Avenue in 1972, and posted the property with its intention to build a Distributing Station at that location.
- * DWP still owns the property and the entitlements to build DS 104.
- * Marquez neighbors who object to the construction of the Station have told DWP that they represent the Palisades community.
- * Without any other voices heard, DWP believes that building the Station would be going against the entire community, a process they are loath to pursue.
- * DS 104 is a distributing station NOT a power station. It functions much like the modem in your own home.
- * We have Distributing Stations up in the Highlands and at Via de la Paz / Sunset. Both have operated safely for many years without any evidence of health risk or serious hazard.

* The purpose of the attached petition is to inform DWP that many Palisadians DO support construction of DS 104 in its proposed location.

* Please ask people to sign a petition to request that DWP build Distributing Station 104 as soon as possible.

Dear All,

I'll be away from Monday through Friday, next week, but I think I'll be reachable by phone and email. Please feel free to try me, and if I don't respond immediately, it's because of bad phone/internet connection.

We've spoken to two different companies about power washing and they are both doing a "test area" for us. We'll be able to decide at the next meeting. I've heard back from the Holiday committee that they have met. Not sure if any other committee has met yet. If you have, let me know so I can add time on the agenda for your reports. Don't know where we are with the City Clerk and our money, but we're trying to keep up with their strange email communications.

Looking forward to seeing you at the next meeting on the 2nd, at 8:30. Please **use this note as a reminder**, and I'll send out the agenda and the minutes (after I get them), upon my return.

Thanks so much,
Laurie

Dear Board Members,

Elliot and I spoke about setting up a SPECIAL BID meeting for next Wed., the 27th at 8:30. We'd like to have a resolution (ACTION ITEM) about formally supporting the Caruso Project. As you know, there is still some local opposition, but all of the other community organizations have given their support, and we'd like to know your thoughts on the matter. There is a planning committee meeting on Thurs. the 28th. We'd like the Caruso folks to know where we stand, and so, have decided to call this meeting, prior to the planning meeting.

The agenda is attached, and, as you will see, it's simply a one topic special meeting. We'd really appreciate your attendance if possible.

I know it is last minute, but if you CANNOT attend, would you please **email me with your written support or opposition** to having the BID officially support the project. You may also call in to the meeting, at 8:30, and become part of the discussion, if you wish. Here is the number for the conference call:

- Dial-in Number: [REDACTED]
- Access Code: [REDACTED]

Also, at 8:00 on Wed., the folks from Spectrum, who are doing the power washing, will be there, so we can take photos for the press, and we'll be able to witness the completion of our first BID project.

Please rsvp to me

Thanks,
